Program Code * Resource Room (ER)

Site (This should be the site the student will be attending) * Alpena Public Schools

Provider * IRVING, KELLY

Time/Frequency * 1-5 hours per week

What is the minimum hours per week the student will participate in this placement? *

What is the maximum hours per week the student will participate in this placement? *

What is the actual hours per week the student will participate in this placement? *

What is the number of

Select your name as the provider.

Then in the Time/Frequency space, write in the amount of time with the needed labels (hours per week). The range should be written for what you expect them to need not what they may need next year, etc. Extreme ranges (i.e. 1-10 hours per week) are not advised.

10:27 AM 11/7/2012

Time/Frequency * 1-5 hours per week

What is the minimum hours per week the student will participate in this placement? *

1 1.

1: This is where you put the minimum time you will be servicing this student. What is the minimum you are going to be seeing them when the IEP begins? (Look at what you wrote in for your time/frequency for this.)

What is the maximum hours per week the student will participate in this placement? *

5 2.

2: What is the maximum per week? (Look at your time/frequency for this.)\

What is the actual hours per week the student will participate in this placement? *

2.5 3.

3. The actual is what is this student going to get when the IEP is implemented. This could be anything from 1-5 hours per week.

What is the number of hours per week this student will be away from his/her non-disabled peers for this placement? *

1 4.

4. This is where you put in how much of the "actual time" is in the resource room?

Example A: Billy gets 1-5 hours per week of Resource Room. He is in a co-taught class for one hour a week where he receives the program of resource room teacher for the entire hour. You would write "0" in this box then.

Example B: Marsha gets 1-5 hours per week of Resource Room. She is in a co-taught class for one hour a week where she receives the program of resource room teacher for just half of the hour. In addition, she also receives the program of resource room teacher in the resource room for a half an hour each day. You would write in "2.5" she is away from her peers only during a half an hour each day in the recourse room classroom.

Location *

Example C: Nambia gets 5-10 hours per week of Resource Room per week. She is two co-taught classes a day but only has a need for the program of Resource Room Teacher for one of these hours. In addition, she receives the program of resource room teacher in the resource room for another hour of the day. Therefore, you would write in "5" hours per week as she is away from her peers one hour each day. (Please note that even though she is in a co-taught class for two hours, we are only providing the program of resource room for one hour.)

IEP Wizard Program (Add) | Illuminate Special Education - Windows Internet Explorer

https://amaesd.illuminateed.com/sandbox/?iep_invitation_id=417&page=IepWizardProgram

What is the maximum hours per week the student will participate in this placement?

What is the actual hours per week the student will participate in this placement?

What is the number of hours per week this student will be away from his/her non-disabled peers for this placement?

Location

Will this program/service begin on the IEP start date and continue for one year? Yes No

Is the program departmentalized? Yes No

If you are co-teaching or may be co-teaching, you will select "General Ed. And Special Ed. Class" for Location.

TBJH and AHS are Departmentalized so be sure to select this.
